IMPORTANT NOTICE
Topics Related to Private Property Trespass Towing

Abandon Vehicle Notification Laws:

It is the responsibility of the Commission to ensure that all known owners of vehicles removed from private property are notified of the location and the associated impoundment cost of a vehicle removed from private property. The notification requirements are outlined in O.C.G.A. Title 40, Chapter 11 and it is the responsibility of the wrecker service to ensure compliance and understand the requirements. Upon request, wrecker services will be required to provide proof of proper notification for any vehicle in question.

After the first seventy two (72) ours of impoundment, wrecker services may charge up to \$40.00 for the cost of notification. After 30 days, the process outlined in O.C.G.A. Title 40, Chapter 11 applies, which entitles the wrecker service to all reasonable fees connected with the removal or storage plus the cost of any notification or advertisement.

Surveillance of Private Property:

It is illegal to enter into any agreement to provide automatic or systematic surveillance of a property for the purpose of removing trespassing vehicles or property. O.C.G.A. §44-1-13(f) states that towing companies must be called by the property owner or authorized agent for each individual case of trespass. It is the Commission's suggestion that wrecker services have the property owner's agent sign a statement or invoice authorizing the removal.

Automatic or systematic surveillance would include the following:

- Any agreement, verbal or written, to drive through a property and remove any vehicle which has been tagged with a warning or a notice by the property owner/agent *unless the wrecker service has been contracted to remove the vehicle.*
- Any agreement, verbal or written, to drive through a property and tag certain vehicles with warning notices (such as vehicles without property parking decals, invalid tags, etc.) and remove the vehicle after the warning has expired. *Only the property owner/agent can identify vehicles for removal.*
- Any Power of Attorney or contract between the wrecker service and the property owner/agent to automatically remove vehicles parked on the premises of an abandon or vacant property *without being contracted by the property owner/agent.*
- Entering a restaurant or other place of business, asking the patrons to identify their vehicles, and then impounding any vehicle not claimed by a patron or employee.
- Impounding any vehicle left in the parking lot after business has closed its doors for the evening.
- Having an agreement with an employee of a business, who has not been authorized by the property owner (clerk, security guard, waitress, etc.) to contact you for when they observe a possible trespassing vehicle.
